

# HICCUPS – Highly Innovative Technology Demonstration for Bio-based CO<sub>2</sub> Capture and Utilisation for the Production of Bulk Plastics Applications

HICCUPS is a novel and resource-efficient solution to convert CO<sub>2</sub> emissions from wastewater treatment plants into bio-based polymers for the packaging industry.

The HICCUPS Project is funded by the European Union and Circular Bio-based Europe Joint Undertaking and its members under the grant agreement number 1011124555.

Views and opinions expressed are those of the author(s) and do not necessarily reflect those of the European Union or Circular Bio-Based Europe. Neither the European Union nor the granting authority can be held responsible for them.

#HiccupsProject  
September 2023 – August 2027
